Objective

Graduate in Information Technology seeking an entry-level software role where I can apply strong programming fundamentals, problem-solving skills, and hands-on project experience in a professional development environment.

Education

Dr. N.G.P. Institute of Technology, Coimbatore Bachelor of Technology in Information Technology GPA: 8.0 / 10	2022 – 2026
AVP Trust National Matric Higher Secondary School, Tiruppur Higher Secondary Certificate (HSC) Percentage: 85%	2021 – 2022
AVP Trust National Matric Higher Secondary School, Tiruppur Secondary School Leaving Certificate (SSLC) Percentage: 71%	2019 – 2020

Skills Summary

Programming Languages

Java, C, Python

Frontend Development

Flutter, ReactJS, Next.js, HTML, CSS

Backend Development

Node.js, FastAPI, RESTful APIs

Databases and Cloud

Firebase, Firestore, MongoDB, Supabase, NeonDB

Tools and Platforms

Postman, Firebase Crashlytics, Firebase Analytics, Google App Engine, Cloudflare Tunnel, Android Studio, Postman

Soft Skills

Problem Solving, Decision Making, Time Management

Projects

Vehicle Speed Intimation on Public Utility Area (Product) The design of an automatic vehicle speed limit notification and warning system with intentions of improving traffic safety.	2024 – 2025
Brain Tumor Application A real time - monitoring and communication between the doctor and patient based on the daily activity and progress updated on the application to track the symptoms after post - treatment.	2024 – 2025

Canteen Rush Management System

2024 – 2025

Developed a Flutter-based canteen app enabling time-slot food ordering, QR-coded receipts, queue monitoring, and secure login via Firebase; reduces rush and wait time.

Experience

Fuzionest Private Limited, Coimbatore

Nov 2025 – Mar 2026

Software Developer Intern

Worked on the initial development of the Aroma health and nutrition platform by designing UI screens, implementing mock functionalities, and integrating APIs for core modules during the internship period.

Fuzionest Private Limited, Coimbatore

Apr 2026 – Present

Software Developer

Working on scalable mobile and web application development using Flutter, ReactJS, Next.js, Node.js, and Python with experience in RESTful APIs, FastAPI, Firebase services, MongoDB, Supabase, NeonDB, Postman, analytics integration, and deployment workflows.

Professional Projects

Custom FCM Payloader and Flutter Notification SDK

2026

Developed a custom FCM payloader platform for creating and managing advanced push notifications and in-app messaging workflows. Built a plug-and-play Flutter SDK supporting persistent notifications, RemoteViews-based custom layouts, widget rendering, action buttons, deep linking, external routing, notification scheduling, and instant in-app messaging without requiring app minimization. Overcame Firebase campaign UI limitations by enabling fully customizable notification rendering and triggering using FCM tokens or topics.

Aroma Health and Nutrition Platform

2025 – 2026

Worked on the development of a cross-platform health and nutrition application using Flutter, Node.js, Firebase, Firestore, REST APIs, analytics, Crashlytics, and cloud-based backend services. The platform includes ingredient scanning, dietary tracking, recipe management, doctor-patient monitoring, and personalized nutrition workflows.

Claude Mobile UI Clone with Dynamic UI Rendering

2026

Built an advanced Flutter application replicating the Claude mobile UI experience integrated with Generative AI and Vertex AI for real-time streaming LLM responses with thinking support. Developed a dynamic widget-rendering using Flutter UI SDK capable of automatically rendering citations, badges, suggestions, text blocks, and multiple UI layouts based on structured AI responses.

AI-Based Lead and Company Intelligence Automation

2026

Developed a Node.js automation system integrated with Explorium AI for collecting top company information, lead details, and business insights automatically. Stored processed data into local databases and synchronized results into Google Sheets using Apps Script automation through Cloudflare Tunnel integration.

Manual CI/CD Pipeline Deployment System

2026

Built a manual deployment pipeline workflow for automated website deployment and environment handling with deployment process optimization and infrastructure management concepts.

Internship

Gateway Software Solutions, Coimbatore

2023 – 2024

A 15 - days internship on Cyber Security with hands-on experience in fundamental areas such as network analysis, penetration testing, cryptography tools, and phishing attack prevention.

Inno Valley Works, Coimbatore

2023 – 2024

Completed a 15-day internship in Salesforce Development at InnoValley Works, Coimbatore, gaining hands-on experience with Apex programming including classes, triggers, and collections, and working extensively on both declarative and programmatic development within the Salesforce platform.

Certifications

Introduction to Programming in C – NPTEL	2023
Programming in Java – NPTEL	2023
Programming in Modern C++ – NPTEL	2024
Industry 4.0 and Industrial IoT – NPTEL	2024
Human Computer Interaction – NPTEL	2025

Area of Interest

- Full Stack Web Development
- Database Management
- Cloud Computing

Languages Known

- Tamil – Native
- English – Proficient
- Hindi – Beginner
